

Frozen Assets

It's not often that we find a convenience product that tastes as good as these buttery slice-and-bake cheese wafers. Studded with crunchy bits of chopped pecans, Mamie's Famous Cheese Wafers are made without preservatives. Sold frozen for around \$7.95 a roll (baked according to package directions, one roll yields about 5 dozen wafers), they're terrific to keep on hand for drop-in guests. If your local grocery store doesn't already carry them, ask the manager to place an order for you. For more information visit www.mamieswafers.com.
